How Does Healing Energy Work?

Energy medicine suggests that the body's energy system is a key element to maintaining health and vitality. When the body's energy system becomes imbalanced and blocked, illness can result. By channeling Source energy and Earth energy through the Energy Healing Practitioner to the client, these blockages are energetically removed and the body starts to function as it is designed to. An Energy Healing Practitioner is trained to become sensitive to locating these energy blocks and help release them. Once this happens it enhances the body's own innate healing.

Sue integrates her four decades of nursing experience into a holistic model of healing called Brennan Healing Science (BHS). Her belief in the integrative health model led her to complete a four-year intensive training in BHS, a nurturing energy therapy that supports and inspires clients in a collaborative health-giving process. Sue's vision is to guide her clients in their journey of transformation through hands-on healing techniques that improve quality of life. Sue was introduced to Barbara Brennan's work by attending a "Hands of Light" workshop, which she now teaches to others interested in energy work. As a pre-operative nurse, Sue witnessed her patients heal faster when they attended her "Heal Faster Surgery Prep Class" prior to elective surgery. The workshop resulted in patients experiencing less anxiety, less need for pain medication and quicker recovery. It is Sue's passion to facilitate relaxation and improve well-being by integrating healing techniques for those who would like to benefit from being more balanced, energetically recharged, and embody their Wholeness.

Sue is a member of The Brennan Healing Science Association, The American Holistic Nurses Association, and The Reno Meditation Group of Self-Realization Fellowship.

She is the owner of Hansa Wellness Studio, a sacred place that allows healing to take place and Wholeness to be discovered safely and naturally. Sue meets clients by appointment, (following a complimentary phone consultation), or Skype. Referral clients are welcome after phone screening.

What is Energy Healing?

Energy Healing is the act of restoring balance and harmony to the body, mind, and spirit of the client. It is a therapeutic approach, which is natural, non-invasive and holistic with the intention to promote self-healing and a sense of peace within the client. Brennan Healing Science is a unique and highly specialized form of energy healing that works with your energy field to support your natural ability to heal. It is a relaxing nurturing energy therapy with gentle touch that serves to work in harmony with traditional medical and psychological treatment.

Why Work With A Healing Science Practitioner?

Brennan Healing Science Practitioners complete over 2000 hours of extensive training and hands-on practice throughout the four-year Certification Program. Brennan training is exacting: the practitioner's curriculum involves one year of personal training to create a clear channel for the healing process. This evidence-based method of energy healing ensures that the practitioner is aligned with their internal and external source of energy prior to acting as a conduit with the client, thus enhancing the recipient's healing.

The Healing Process

You are invited to experience the relationship between the physical body and emotional, mental, and spiritual health.

Sue can help you access your innate and natural ability to heal. This can support you in achieving your personal potential and in living a meaningful, joy-filled, healthy life. The healings support the energetic clearing of your field and help you develop a deeper understanding of yourself. As your understanding increases so does your ability to identify the major obstacles (energy blocks) back to their origins and release them with love. You can learn to free yourself from old patterns and behaviors that no longer serve your highest good. This is the process of healing.

Do You Want To Be...

- Open to learning from all of life's experiences
- Able to feel embodied in your physical self
- Able to feel and accept the full range of your emotions
- Clear, focused and understood
- Centered in fulfilling relationships
- Connected to your life purpose and soul's longing
